GENERAL INFORMATION

The Z1-F is an LED downlight using 10W and incorporates the latest LED array technology. This mid-level 10W downlight is compact, energy efficient and maintenance free.

PRODUCT SPECIFICATIONS

The Z1-F is not suitable for covering with insulation materials.

IMPORTANT INFORMATION

ECOLED® recommends that installation should only be carried out by a qualified electrician ensuring the installation complies with current IEE wiring regulations & local building control.

ESSENTIAL ADVICE

ISOLATE ELECTRICAL SUPPLY BEFORE COMMENCING WORK.

DO NOT SWITCH ON UNTIL ALL CONNECTIONS HAVE BEEN MADE AND PROPERLY CHECKED

FITTING INSTRUCTIONS

①

Cut an 86mm hole in the ceiling ensuring adequate minimum ceiling void (110mm) without infringing on joists, water pipes or cables.

②

Make sure there is at least 50mm free air ventilation around the fitting (this is to ensure the Fitting is adequately able to cool itself).

③

Connect mains supply to the 350mA constant current driver.

(Blue – Neutral / Brown – Live)

No earth is required, if an earth wire is present, ensure it is fully insulated and cannot contact live or neutral terminals.

④

When ready to fit the Z1-F connect the (Red - Positive⁺) and (Black - Negative⁻) wires to the DC output terminal of the 350mA driver.

⑤

Bend the sprung legs back, slide the driver into the ceiling followed by the Z1-F, and ensure it is secure.

⑥

Do not fit into new plaster or freshly painted area's until completely dry.

⑦

Remember to ensure that all units are connected before switching on the power or you may severely damage the LEDs.
